

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 16 through 31, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16 through 31, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Brian Grattidge (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of December 16-31, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002

TO: ALL CEQA LEAD AGENCIES

FROM: TERRY ROBERTS, STATE CLEARINGHOUSE

RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, December 16, 2002</u>			
2002122075	Williamson Act Cancellation Request No. 2002-01, UP No. 2002-53 & Lot Line Adj. No. 2002-60 - Catholic Church Modesto, City of --Stanislaus Request to cancel Williamson Act Contracts 77-2997 and 77-2999 covering 10 acres to allow for development of a cemetery with a use permit. The cemetery development will include an office, maintenance facility, and garden mausoleum. A lot line adjustment is being requested to reconfigure the existing 10 and 30 acre parcels to parcels of the same size allowing for greater roadway frontage for the cemetery. The remaining 30 acres will be entered into the new Williamson Act contract and maintained for future cemetery expansion.	CON	12/31/2002
2002071013	Creekside Marketplace and Adjacent Retail San Marcos, City of San Marcos--San Diego Area A is east of Grand Avenue, would consist of approximately 313,657 square feet of retail space on 25.7 net useable acres (28 acres gross) within a planned commercial center, otherwise referred to as "Creekside Marketplace". The marketplace will consist of major anchor retail buildings with smaller retail shops and the potential for a drive thru use. Area B is west of Grand Avenue and would consist of 84,000 square feet of retail space on approximately 7.5 acres. Area B would also consist of retail stores and the potential for drive thru use.	EIR	01/29/2003
2002102110	33-49 Encina Avenue, The Opportunity Center & Housing Project Palo Alto, City of Palo Alto--Santa Clara Application for a Zone Change from the CS (Commercial Service) to a Planned Community (PC) Zone District, to allow for the demolition of the existing structures (approximately 5,260 square feet of commercial/office space) and construction of a new five-story mixed use building that includes 90 below market rate units, approximately 12,000 square feet of community service area, a two level subterranean parking garage and related site improvements.	EIR	01/14/2003
2000062024	Middle Creek Flood Damage Reduction and Ecosystem Restoration Reclamation Board --Lake The Corps, in cooperation with The Reclamation Board and Lake County, has completed a feasibility report and EIS/EIR for the Middle Creek Flood Damage Reduction and Ecosystem Restoration Study. This report evaluates alternatives for flood damage reduction and restoration of historical floodplain wetlands along Middle Creek and Rodman Slough adjacent to the north side of Clear Lake in Lake County, California. Implementation of this project would reduce a currently significant hazard of flooding, restore native wetlands and associated wildlife and fisheries habitat, improve lake water quality, enhance outdoor recreational opportunities, and reduce flood project maintenance costs within the existing Middle Creek Flood Control Project area.	FYI

<u>Documents Received on Monday, December 16, 2002</u>			
2002121079	General Plan Amendment to Public Safety and Related Elements Regarding Airport Land Use Compatibility Hemet, City of Hemet--Riverside The proposed General Plan Amendment would remove all specific numerical, narrative, and graphically displayed criteria referring to airport safety from the Public Safety and related General Plan Elements and replace these with general language requiring consistency with the Airport Land Use Plan.	NOP	01/14/2003
2002102141	Use Permit Application No. 2002-29 - Key Production Company, Inc. Stanislaus County Oakdale--Stanislaus Request to drill and oil and/or natural gas well on approximately one acre. Drilling will take place 24 hours a day for approximately two weeks. Up to 8 employees would be on site during drilling. If production occurs, one person would visit the site on a daily basis.	Neg	01/14/2003
2002121080	Rancho Arroyo Grande Development Plan; D020054D San Luis Obispo County Arroyo Grande--San Luis Obispo A 168,910-square foot winery and tasting room facility including winery productions facilities, parking areas, roadway and utility improvements, wastewater and constructed wetlands system, tasting room facilities, courtyards, landscaping, and 40 special events per year with up to 120 people per event.	Neg	01/14/2003
2002121081	Tierra Verde Green Waste Facility - PA020108 Orange County Irvine--Orange The applicant, Tierra Verde Industries, is requesting approval of a Use Permit for expansion of its current operations to establish an additional use of on-site wholesale and retail sale of the final product of green waste and waste wood processed through composting by the industries.	Neg	01/14/2003
2002121082	Alpine Branch Library San Diego County --San Diego The County of San Diego Department of General Services is proposing to build a new San Diego County Branch Library in the Community of Alpine. The proposed 9,400 square-foot library would be located on the north side of Alpine Boulevard. The proposed library is a single-story structure with a parking garage underneath it.	Neg	01/14/2003
2002121083	Felsen Production Well Project Crestline Village Water District --San Bernardino The proposed project consists of development and production of a vertical well using the existing well casing. A submersible pump with a 7.5 (+/-) horsepower submersible electric motor, power cable, and discharge piping will be installed within the well casing. A small segment (approximately 250 linear feet) of pipe is needed to connect the well to the existing water main and a small protective structure will be built on top of the approximately 25 square foot reinforced concrete slab surrounding the well casing in the center of the graded well pad. 2002101125	Kavli Institute of Theoretical Physics / Kohn Hall Addition University of California, Santa Barbara Goleta--Santa Barbara Kohn Hall is an existing two-story building that provides 28,400 gross square feet (GSF) of floor area. The University of California, Santa Barbara, proposes to construct a 4,928 assignable square feet (ASF) two-story addition to the Kavli Institute of Theoretical Physics/ Kohn Hall. Additionally, 854 ASF will be renovated. The project encompasses 9,327 gross square feet (GSF) and will include 17 offices, a 50-seat auditorium, a meeting room, restrooms, and interaction space in a new west wing. The project includes landscaping, an outdoor gathering area, the realignment of an existing bike path, and reconfiguration of bike and service parking. The new west wing will close off the building's existing courtyard. The courtyard will also be covered to function as a year round outdoor meeting and gathering space.	NOD	
2002111046	UTT Middle School Field Lighting Tustin Unified School District Tustin--Orange The Tustin Unified School District proposes to undertake the construction and operation of field lighting at existing little league field at UTT Middle School ("Project"). The Project will be constructed in cooperation with the City of Tustin, in conjunction with and at the request of Tustin Eastern Little League, a non-profit organization which has operated a youth baseball league on fields at UTT Middle School for over ten years. The Project proposes to light the UTT Middle School athletic field at the corner of Browning and San Juan Streets to allow youth athletic activities after dusk. The fenced baseball diamond area would be most heavily used for baseball related activities during the Little League baseball season (February through July), with a reduction in use during the off-season (August through January), the area beyond the baseball diamond's left-field fence would be lighted and available for various activities, including soccer practices. The City of Tustin is deficient in lighted athletic facilities capable for use by Little League or soccer and is currently unable to provide practice facilities for all of the youth athletic teams. This project is a joint effort between the Tustin Eastern Little League (providing financial and project support contributions), the City of Tustin	NOD

2002128289	Temporary Discharge of Water from the Inland Feeder Pipeline at Devil's Canyon East Fork Metropolitan Water District of Southern California San Bernardino--San Bernardino The Metropolitan Water District of Southern California (Metropolitan) proposes to discharge between 3 to 6 acre-feet of water from a valve structure along the pipeline into a channel managed by the San Bernardino County Flood Control District (Devil's Canyon East Fork). The discharge will enable the Department of Water Resources to repair its valve. Discharge will be confined to the existing stormwater channel and a maximum discharge flow of 5 cubic feet per second will be maintained.	NOE	
2002128290	Modification and Repair of Two Blow-Off Structures Along the Allen McColloch Pipeline Metropolitan Water District of Southern California Yorba Linda--Orange The Metropolitan Water District of Southern California (Metropolitan) is proposing to modify an existing blow-off pipe that discharges to the storm drain. This modification, which will take place at Station 7+40 along the pipeline, consists of adding an air gap to the pipe. In addition, Metropolitan proposes to repair an existing blow-off structure located at Station 59+90 that was damaged during grading activities.	NOE	
2002128291	Maintenance Activities at the F.E. Weymouth Filtration Plant Metropolitan Water District of Southern California La Verne--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) is proposing to dewater the filter influent channel at Building 2 at the F.E. Weymouth Filtration Plant in order to inspect the channel and associated equipment and to replace the filter influent chlorine diffuser. The channel will be refilled and returned to service upon completion of the maintenance. Metropolitan also proposes to install baffles to control foam in the filtration basins.	NOE

2002121092	Azusa Pacific University Specific Plan Azusa, City of Azusa--Los Angeles Facing increasing enrollment demands, APU has submitted an application for approval of a Specific Plan based on the recently completed Master Plan for the expansion of their campus in the City of Azusa. The APU Azusa campus has a current enrollment of 6,495 students. The University anticipates future enrollment of 5,600 undergraduates and 3,300 graduate students. To address the anticipated growth of APU's student body, the effective incorporation of its recently acquired Foothill Boulevard properties and the physical integration of a newly articulated vision statement for the University, APU developed a new Master Plan. APU subsequently decided to re-format the Master Plan into a Specific Plan by incorporating all of the state required elements of a Specific Plan.	NOP	01/15/2003

2002128285	<p>Upgrade Railings and Widen Bridge Structures: Gilbert Creek Bridge and Smith River Overflow Bridge</p> <p>Caltrans #1</p> <p>Crescent City--Del Norte</p> <p>Caltrans is planning a bridge widening project in Del Norte County, north of Crescent City, at post mile 45.3 approximately 1.3 miles south of the Oregon State line and 0.8 miles from the USDA inspection station. This project to widen the existing bridge and upgrade the bridge rails is necessary to meet current design standards. In addition, widening shoulders to 2.4 m will improve safety for motorists and bicyclists since the present bridge shoulders are less than 0.3 m. The proposed scope of work also includes removing a portion of the existing retaining walls and footings, addition of infill walls and footings between the columns, adding support piles and footings and walls at both abutments, construction of a small retaining wall along an existing cut slope near the southwest end of the structure, and relocation of existing utilities within the transportation right of way.</p>	NOE	
2002128286	<p>Castaic Lake Access Ramp Removal</p> <p>Fish & Game #5</p> <p>--Los Angeles</p> <p>The project includes the removal of the reinforced concrete ramp structure and walkway leading to the ramp from the parking area. Rip-rap will be placed where the ramp was located and grass will be planted where the walkway is removed.</p>	NOE	
2002128287	<p>Defensible Space Maintenance</p> <p>Parks and Recreation, Department of</p> <p>--Alpine</p> <p>Construct and maintain a defensible space against wildfires at least 30 feet from all facilities and structures in Grover Hot Springs State Park. Cut weeds and grasses to less than six inches; remove combustible materials from ground and roofs; prune shrubs and trees; remove excessively dense tree cover; and stack and cover stored firewood away from structures. Post address in clearly visible areas to assist emergency response personnel. Project protects public safety and park resources and supports continued maintenance.</p>	NOE	
2002128292	<p>Repair, Minor Alteration, and Vegetation Management Projects at Diamond Valley Lake</p> <p>Metropolitan Water District of Southern California</p> <p>--Riverside</p> <p>The Metropolitan Water District of Southern California (Metropolitan) proposes to repair erosion damage to drainage areas by filling eroded areas with soil, stone, and/or rock on the west side of Diamond Valley Lake, install a gate in an existing chain-link fence for Southern California Edison access onto Metropolitan property on the north side of the Wadsworth Pumping Plant, and conduct a controlled burn to accomplish vegetation removal in the vicinity of the East Recreation Dam.</p>	NOE

The applicant's intention is to retain the key character defining architectural elements of the main building, namely the domed tower with arcade that was the office and portions of the opposite end of the building that housed the restaurant.</p>	NOP	01/16/2003
2002121094	<p>Felicita Avenue/Juniper Street CIP Street Widening Project Escondido, City of Escondido--San Diego The proposed project is a City of Escondido Capital Improvement Project to widen Felicita Avenue and Juniper Street in conformance with the City's General Plan (a total distance of approximately 1 mile). The project will be constructed in two phases. Phase 1 includes the widening of Juniper Street between 14th and 15th Avenues. The roadway width will be 64 feet from curb to curb, with 2 lanes in each direction and a left-turn lane. A portion of this widening (west side of Juniper Street, from Fifteenth Avenue to the Felicita Village condominium project entry drive) will be improved by the developers of Escondido Tract 841 (not a part of this City project). Additional improvements along 15th from Juniper to Broadway will include curb, gutter sidewalks and streetlights. In addition, the intersection of 15th/Juniper/Idaho will be realigned, and a traffic signal will be installed at that location. Water line replacement and storm drain upgrades will also be constructed at Juniper Street and Idaho Street. Three partial acquisitions will be required with Phase 1. Phase 2 will include the widening of Felicita Avenue between Escondido Boulevard and Juniper Street. This will consist of widening the existing two-lanes to full major roadway width. The width will vary between seventy nine to eighty-two feet curb to curb with two travel lanes in each direction and a raised median with left turn pockets provided at selected intersections. The widening of Juniper Street between Felicita Avenue and Chestnut Street consists of widening the existing two-lanes to full collector street width. The roadway width will be sixty-four feet from curb to curb, with two lanes in each direction and a left turn lane. New traffic signals will be installed at the intersections of Chestnut/Juniper (which will be realigned to the north to form a T-intersection with Juniper) and 13th/Juniper. This project will require the full acquisition of four</p>	Neg	01/16/2003

following:

a. Maintain around and adjacent to such building or structure a firebreak made by removing and clearing away, for a distance of not less than 30 feet on each side thereof or to the property line which ever is nearer, all flammable vegetation or other combustible growth. (Other provisions in PRC 4291 include removable of other vegetative material near and about the structure)"

Residents who utilize the program are required to clear the vegetation around their structure(s), in compliance with PRC 4291, and place that cut material at the edge of their property near the road or driveway. Before the chipper program began, the resident's preferred method of treatment was to pile and burn. Pile burning can result in fire escapes and air quality problems. Chipping the material offers a safer and clearer method of treatment.

2002128327	Lease for the Department of Toxic Substances Control (DTSC) Hazardous Materials Laboratory Toxic Substances Control, Department of Berkeley--Alameda The Department of Toxic Substances Control (DTSC) Hazardous Materials Laboratory (HML) will lease approximately 11,000 square feet on the first floor of an existing, State-occupied office building in Berkeley. Approximately 20 HML staff will move to 700 Heinz Avenue to join HML staff who already occupy the remainder of the first floor at 700 Heinz Avenue. HML utilizes several specialty gases, and chemicals that are stored on-site. HML will install additional fume hoods to accommodate existing staff. DTSC, the Lead Agency, shall ensure that the project complies with any applicable regional and local air quality district rules and regulations. HML serves less than 20 customers per week, and would utilize 6 additional parking spaces on-site. There is local public transit available within one-quarter mile of the building to be leased.	NOE

	transportation improvements in the Concourse area, and throughout Golden Gate Park, as described in Proposition J. Proposition J requires removal of surface parking spaces from the Concourse area, and in locations throughout the Park, equivalent to the number of spaces provided in the new underground parking facility upon completion of the parking facility. Phase II of the project would entail construction of an Underground Through Street connecting Fulton Street to Middle Drive East, which would allow for through traffic to be restricted or eliminated from Tea Garden Drive and Academy Drive.		
2001112111	Bradshaw Road Widening Project Sacramento County Elk Grove--Sacramento The proposed project will widen Bradshaw Road from Morrison Creek to Calvine Road, Install signals, Class II Bike lanes, and a bridge over Elder Creek.	FIN	
2002091035	Construction of a 372,200 Gallon Temporary Above Ground Steel Tank - Job No. 0214 Yorba Linda Water District Yorba Linda--Orange Construction of 372,000 gallon temporary above ground steel tank, including valves, piping, painting and landscaping.	FIN	
2002122090	Library Gardens Berkeley, City of Berkeley--Alameda The project proposes to modify the Use Permit for the Project approved by City Council in February, 2002. The Modified Project would retain all of the above-ground features of the Approved Project, consisting of a five-story building that includes 176 rental apartments over ground floor retail, ground floor parking spaces, an 8,900 sf park and courtyards and walkways. The Modified Project would provide 105 residential parking spaces, 5 spaces for the Project's commercial uses, and 19 residual parking spaces. Unlike the Approved Project, the Modified Project would not include 362 public parking spaces in two sub surface levels, P-1 and P-2; it would not include a vehicular entrance/exit on Bancroft Way and would reduce the entrance/exit on Kittredge Street from three lanes to two lanes.	NOP	01/17/2003
2002122091	Planned Development Rezoning (File No. PDC02-086) and Subsequent Permits San Jose, City of San Jose--Santa Clara The proposed Planned Development Rezoning would allow the development of up to 222,673 square feet of commercial uses on an 18.75 gross acre site. The development proposes to remove the old IBM research building, a potential historic resource, as well as many ordinance-sized trees.	NOP	01/17/2003

2000061141	Pier J South Marine Terminal Project Long Beach, Port of Long Beach--Los Angeles Redevelopment of approximately 385 acres of marine container terminal space including filling of approximately 115 acres of water area, removal of 15 acres of existing land, and construction of wharves, buildings, and utilities.	RIR	02/03/2003
2001112031	Lakeside Trail Phase IIA - Truckee River Outlet Crossing Tahoe City Public Utility District --Placer In mid 1999, the PUD submitted an environmental document that addressed the last remaining portion of the trail system. Since that document was completed, an additional alternative has come to light that affects one segment of the approved Community Intertie Project. In the original 1999 environmental document, it was proposed that the alignment would cross the Truckee River via a new pedestrian/bicycle bridge constructed adjacent the Truckee River Bridge along State Route 89. The additional alternative would result in a relocation of the crossing.	SBE	02/03/2003
1994101023	Moses Grading Plan, L 14188 San Diego County Department of Planning and Land Use San Diego--San Diego The project proposes a grading plan for the extension of a private storm drain within an existing basin along the rear property boundary. The grading involves fill of 420 cubic yards with a maximum height of 3 feet. Fill for the project will be obtained on site from previous landscaping and permitted development. The project is located within the Santa Fe Valley Specific Plan.	NOD	
1996051021	Oceanside-Escondido Rail Project North County Transit District Alter the streambed of Loma Alta Creek, Buena Vista Creek, Agua Hedionda Creek, San Marcos Creek, Reidy Creek, and Escondido Creek to upgrade an existing 22-mile freight rail corridor into a Diesel Multiple Unit passenger rail system in conjunction with freight services, impacting 11.11 acres of streambed.	NOD	
2002042134	Environmental Impact Report for the City of Oakley General Plan Oakley, City of Oakley--Contra Costa The General Plan consists of the seven elements required by state law: Land Use, Transportation, Conservation, Open Space, Safety, Noise, and Housing; as well as two optional elements, Growth Management and Economic Development. The General Plan contains goals, policies and programs to guide the physical development of the City and the conservation of its resources, generally over a 20-year planning horizon. Thus, the General Plan contains all content for the mandatory general plan elements as required by State law, including the proposed general distribution, location and extent of land uses in the Planning Area for residential, commercial, industrial, public, open space and parks and other categories of public and private uses of land, and including standards of population density and building intensity. 	Rosemead, as shown in Figure 1. The proposed project is sometimes referred to herein as the Delta Treatment Plant. It is located in the western portion of the South El Monte Operable Unit (SEMOU), which is a subunit of the San Gabriel Superfund Site established by the United States Environmental Protection Agency (EPA). Multiple areas of the San Gabriel Basin aquifer are contaminated with VOCs, as well as other chemicals including Nitrate, Perchlorate, N-Nitrosodimethylamine (NDMA), and 1,4-Dioxane. These chemicals of concern continue to migrate in a westerly direction within the deeper aquifer of the SEMOU and have affected numerous water purveyors in the SEMOU. The proposed project meets EPA's objectives of containment, capture and removal of contaminants for the SEMOU and provides a potable water supply for the City whose water supply wells have been impacted by contamination.		
2002122093	Half Moon Bay Library Half Moon Bay, City of Half Moon Bay--San Mateo The City of Half Moon Bay proposes to demolish the existing 7,800 sq. ft. Half Moon Bay Library and construct a new two-story 33,600 sq. ft. library.	Neg	
2002122094	Campus Child Care Center University of California Davis--Yolo UC Davis proposes to construct and operate the Campus Child Care Center at a site on the central campus located west of the Orchard Park family housing complex and east of State Route 113. The project would provide year-round childcare for approximately 95 infant through preschool-aged children. In addition, the facility would provide school holiday and summer day care for approximately 24 elementary school-aged children. The proposed Campus Child Care Center would include an approximately 9,345 gross square feet (7,103 assignable square feet) child care building, approximately 10,710 square feet of play yards, and possibly a parking area with up to 26 spaces. In addition, roadway and bicycle path improvements along Orchard Park Circle would be implemented. The proposed project also includes changing the land use designation of the site from Open Space Reserve to Housing.	Neg	01/21/2003
2002122096	Lund Construction Warehouse and Office Development (EIAQ-3703) Placer County Rocklin--Placer Proposal to construct 10 freestanding buildings that consist of 67,350 square feet warehouse and 20,020 square foot office with outside storage on a 10.1 acre site.	Neg	01/21/2003
2002122097	South Plumas Lake Water Master Plan Olivehurst Public Utilities District --Yuba The proposed project would include the construction of a water distribution system, water treatment plant, and water wells to serve the South Plumas Lake area. The project site is bounded by Feather River Boulevard to the south and west, Algodon Road to the north, and Highway 70 to the east.	Neg	01/21/2003

	groundwater management purposes, and to improve system reliability and flexibility by replacing one poorly functioning production well. Project components include: the installation of nine monitoring wells at four coastal locations, the installation of two test wells (and possible replacement of one existing active production well) at one location, and the modification of five existing wells to monitoring wells at three locations.		
2002122099	Safe Routes to School: Pearson Road-Mallan Lane to Clark Road Paradise, City of Paradise--Butte Realignment and signalization of the Pearson Road/Recreation Drive intersection; sidewalk improvements to Pearson Road; etc.	Neg	01/21/2003
2002122100	Butte Water District 2003 Crop Idling and Short-Term Water Transfer Program for Sale EWA Butte Water District Gridley--Butte, Sutter Butte Water District (Butte WD) is proposing a 1-year program (2003) in which farmers would voluntarily idle their land served with district surface water. Idling would reduce Butte WD deliveries by up to 20% (19,680 acre-feet). Butte WD proposes a short-term transfer of the water to the DWR Environmental Water Account (EWA) program, which proposes to purchase this water.	Neg	01/21/2003
1988030915	Pointe Parkway Extension (SAA R5-2002-0307) San Diego County --SAN DIEGO Alter the stream to construct a bridge over the stream as part of the extension of Pointe Parkway. The bridge will consist of a cast in place concrete structure with one single span. Bridge abutments will be located outside the stream. Fill will not be placed in such a manner as to create ponding or diversion of the natural flows in the soft bottom of the stream. If necessary, the soft bottom channel will be slightly concave to promote natural flows. Some temporary disturbance will occur to the soft bottom of the stream during construction, but the post construction condition will be as close to the existing conditions as possible.	NOD	
2000021033	Harbor View Village Emergency Access Road Project (Mesa Pacific) Oceanside Planning Department Oceanside--San Diego Alter the streambed of an unnamed drainage with Lawrence Canyon tributary to the San Luis Rey River, to accommodate the construction of a 20-foot wide secondary emergency access road for the Harbor View Village Project, impacting 0.10 acre of streambed.	NOD	
2000091065	Santa Ana Second Main Track Project Southern California Regional Rail Authority Orange, Santa Ana--Orange The proposed project is the construction of a second main railroad track immediately adjacent to, and west of, the existing single track from approximately La Veta Avenue in the City of Orange, south to 17th Street in the City of Santa Ana, a distance of about 1.8 miles. A second railroad bridge would be built over Sanitago Creek, immediately to the west of an existing bridge. The new tracks and bridge would be located within existing railroad right-of-way. Project construction between Fairhaven Avenue and 17th Street would require changes in the layout of Lincoln Avenue. These changes require the acquisition of underlying interests in several slivers of street property along Lincoln Avenue and acquisition	NOD

	of a small parcel of private land at the intersection of Santa Clara Avenue and Lincoln Avenue. The proposed project would include limited physical and operational improvements to four intersections (La Veta Avenue in Orange and Fairhaven Avenue, Santa Clara Avenue and 17th Street in Santa Ana), as well as all necessary safety improvements.		
2001051022	Agreement Regarding Proposed Stream Alteration (SAA R5-2002-0135) for the Construction of the Santiago Creek Bike Trail Orange, City of Orange--Orange Alter the streambed to construct the Santiago Creek Bike Trail adjacent to Santiago Creek. Improvement of three additional sections of trail linking the path along the creek. The path will consist of a ten foot-wide paved trail with two foot-wide graded shoulders. Undercrossings will be constructed at State Route 22 (SR-22), Cambridge Street, and Tustin Street. The undercrossings at SR-22 and Tustin Street will be constructed on an existing dirt path, while the undercrossing at Cambridge Street will involve the grading of the bank and the placement of rip rap within the streambed.	NOD	
2001051123	Grace Ministries International Master Plan Fullerton, City of Fullerton--Orange The City of Fullerton approved several discretionary action, including a General Plan Amendment (Land Use Element), Zone Change, Conditional Use Permit, Site Plan and Development Agreement that will allow the applicant, Grace Ministries International, to construct a 2,500-seat sanctuary that will also accommodate an 800-seat banquet facility. The City also approved the conversion of the existing R&D Building to a private school (Grades 7-12) that will accommodate 500 students and the construction of a new gymnasium. Finally, the Site Plan includes use of the existing 59,542 square feet of professional office space and the conversion of 6,000 square feet of that existing building to retail commercial uses. A total of 1,019 surface parking spaces will be provided to accommodate the proposed uses.	NOD

2002128351	Ossagon Trail Bridge Replacement Parks and Recreation, Department of --Humboldt Replace the temporary pipe bridge with a prefabricated, permanent 38' truss bridge across Ossagon Creek at Prairie Creek Redwoods State Park. The permanent bridge will be constructed on the original footprint; will not require any excavations beyond the original footings; and will be built following DPR-approved plans from the District Trails Guide. All bridge materials will be constructed and fitted offsite, limiting onsite installation to assembly and minor hand sawing of rails to minimize noise levels. Silt fencing and a tarp placed under the bridge will prevent sediment and debris from entering the stream channel; during periods of heavy rains, exposed soil will be covered to prevent erosion. All work will occur outside the marbled murrelet and northern spotted owl breeding seasons. This project protects public safety, reduces erosion and sedimentation, and supports continued use and maintenance.	NOE	
2002128352	Upper Butler Creek Trail Bridge Replacement Parks and Recreation, Department of --Humboldt Replace the deteriorating 22 foot bridge across the upper drainage of Butler Creek on the West Bridge Trail at Prairie Creek Redwoods State Park with a 26 foot truss bridge. Excavations approximately three feet deep and six feet in length on both sides of the creek will be required for installation, but work will be generally confined to the existing trail corridor. Silt fencing and a tarp placed under the bridge will prevent sediment and debris from entering the stream channel. The new structure will be pre-manufactured offsite then assembled on location without heavy power tools. All work will occur outside marbled murrelet and northern spotted owl breeding seasons.	NOE

2002122101	<p>North Hatch Elementary School Project Ceres Unified School District Ceres--Stanislaus</p> <p>The Ceres Unified School District is proposing to construct a new elementary school. The proposed elementary school would be designed to accommodate about 630 students, and would include playfields. There would be no lighted fields. Joint use facilities with the City of Ceres are not anticipated at this time. Onsite parking adequate to accommodate anticipated parking demand would also be provided. Additionally, appropriate pick up/drop off areas will also be implemented. Access to the site would be from either Nadine Avenue or Stonum Road.</p> <p>The proposed school must meet the requirements of the District, the Office of Public School Construction (OPSC) and the California Department of Education. In general, the site meets the minimum criteria, being at least 10 acres and roughly rectangular in shape, with good access to major roads.</p> <p>Existing residences and other facilities onsite would be demolished to accommodate school construction. Current site residents would be provided relocation assistance in accordance with State requirements.</p>	Neg	01/21/2003
2002122102	<p>Fox Property Industrial Campus San Jose, City of San Jose--Santa Clara</p> <p>Site Development Permit to allow the construction of three industrial (research and development) building totalling 275,000 square feet and associated surface parking lot on a 17.98 gross acre site.</p>	Neg	01/21/2003
2002122103	<p>Whitmore Elementary School Project Ceres Unified School District Ceres--Stanislaus</p> <p>The Ceres Unified School District is proposing to construct a new elementary school. The proposed elementary school would be designed to accommodate about 630 students, and would include classrooms, administrative offices, and facilities typically associated with elementary school facilities, including playfields. There would be no lighted field. Joint use facilities with the City of Ceres are not anticipated at this time. Onsite parking adequate to accommodate anticipated parking demand would also be provided. Additionally, appropriate pick up/drop off areas will also be implemented. Access to the site would be from either Nadine Avenue or Stonum Road.</p> <p>The proposed school must meet the requirements of the District, the Office of Public School Construction (OPSC) and the California Department of Education. In general, the site meets the minimum criteria, being at least 10 acres and roughly rectangular in shape, with good access to major roads.</p> <p>Existing residences and other facilities onsite would be demolished to accommodate school construction. 	rerouted, thus restoring the damaged trail portion while reopening a formerly closed logging road that will lead to a new bridge crossing. Project construction will occur over an approximately eight to ten-week period.		
2002122105	Ukiah Air Attack Base CDF Forest Fire Station Relocation Project Forestry and Fire Protection, Department of Ukiah--Mendocino The proposed new facilities at the Ukiah Air Attack Base (UAAB) would include a 4,167 square-foot air operations building, with an elevated dispatch area to control flight and loading operations, a 3,200 square-foot warehouse/shop building, a 2,915 square-foot aircraft hanger, a 150 square-foot hazardous material building, a fire retardant mixing, storage building, a fire retardant mixing, storage building and loading facility, a 1,200 square-foot taxiway, an air attack parking pad, four aircraft retardant-loading areas, new water, sewer, electrical, and phone lines, and sidewalks. The new UAAB would be accessed by a new driveway that would intersect Airport Road on the east side of the project area, west of the California Northern Railroad tracks. Site work needed for the new facilities would include site grading, asphalt paving, installing, larger power lines with utility tie-ins, landscaping, and fencing. The facilities at the old UAAB would be demolished. The UAAB is a primary fire control facility for the North Coast fire protection system. Its initial attack area is 3.5 million acres, and it protects 425,000 acres of wildland with close proximity to dense urban areas. The base provides fire protection for Mendocino, Lake, Sonoma, and Humboldt counties, with the protection area including many regional cities close to wildland areas, and numerous state parks. 	construct a paved road, as part of Phase 1B of the North Chollas Community Park Expansion. The overall North Chollas Community Park Expansion Plan includes multipurpose ball fields, passive turf areas, paved parking areas, picnic areas, comfort station and snack bar, nature trail system, disabled access trail and exercise walkway, overlook areas, and revegetation and enhancement of disturbed native habitat areas, divided into phases to be implemented as funding becomes available. Phase 1B includes widening and improving the access road into the park and constructing a parking lot, as well as entry signage, security gates, landscaping and irrigation, and a paved pedestrian plaza. Jurisdictional communities onsite include 0.01 acres of unvegetated stream and 0.0084 acres of mule fat scrub. The project is located north of College Grove Drive and west of Gloria's Mesa Park and Chollas Lake in the City of San Diego, San Diego County.		
2001011052	Guajome Park Academy Expansion Vista City Unified School Dist. Vista--San Diego California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Fish and Game Code section 1601 to the project applicant Mr. Mike Vail, representing Vista Unified School District. The applicant proposes to alter the streambed of an unnamed drainage, tributary to the San Luis Rey River, to accommodate the expansion of the Guajome Park Academy. Project activity includes demolition and/or removal of the existing portable school buildings and ancillary facilities, grading and development.	NOD	
2001051147	Dawson Major Subdivision San Diego County, Department of Planning and Land Use --San Diego California Department of Fish and Game is intending to execute a Lake and Streambed Alteration Agreement pursuant to section 1603 (SAA #R5-2002-0394) of the Fish and Game Code to the project applicant, RMCI Development, Inc. The applicant proposes to alter the stream to sub-divide a 14.95-acre parcel into 20 half-acre minimum parcels and associated infrastructure. The project will involve grading and filling 0.07 acres of ephemeral stream. Native riparian habitats found on site include: unvegetated stream (0.07 acres). The project is located east of Jamacha Road (SR54), immediately south of Hidden Mesa Road at the intersection of Hidden Mesa Road and Hidden Springs Drive in San Diego County.	NOD	
2001071125	Tentative Tract 16047 Brea, City of Brea--Orange This action would subdivide an approximately 13.4 acre property into 55 lots for the future development of single family homes, plus several lettered lots for utilities, a private access road and landscaping. The project also includes 4.3 acres of off-site slopes and detention basins to the north of the proposed subdivision. The project is in accordance with Chapter 20.208 of the Brea Zoning Code, the City Subdivision Ordinance and the State Subdivision Map Act.	NOD	
2002051156	General Plan Amendment Bakersfield, City of Bakersfield--Kern The Metropolitan Bakersfield General Plan Update amended the text and land use, circulation, and bikeways maps of the current Metropolitan Bakersfield 2010 General Plan.	NOD

2001011103	Kern Delta Water District Groundwater Banking In-Lieu Water Supply Project Kern Delta Water District --Kern Clarify technical aspects of the previously approved project to construct and operate a system of water conveyance, groundwater recharge, delivery, and groundwater extraction facilities to enhance water supply and water supply reliability within Kern Delta Water District. The proposed project will provide supplemental water storage (banking) for Metropolitan under a cooperative agreement. Facilities would be similar to those of neighboring water storage districts.	NOD	
2002102093	Zone 7 Water Agency Arroyo Mocho Diversion Project Zone 7 Water Agency --Alameda Zone 7 proposes to intall a diversion facility rated at 100 cubic feet per second (cfs) within the Arroyo Mocho Flood Control Channel to divert up to 200 acre-feet (af) per day of imported South Bay Aqueduct (SBA) supplies into Lake H, the northwestern-most pond within the existing quarry areas between the cities of Pleasanton and Livermore. The proposed facility will be constructed by Hanson Aggregates and will be owned and operated by Zone 7 following completion of construction.	NOD	
2002128428	School House Entrance Parks and Recreation, Department of Hollister--San Benito The School House gate is the main entrance to Upper Ranch of Hollister Hills SVRA. An asphalt apron exists at the entrance from Cienega Raod and extends twenty feet past the gate into the parking area at the School House. The parking area in front of the School House is base rock and compacted natural soil. The project would consist of extending the asphalt apron an additional 7,500 square feet to encompass the existing parking area in front of the School House. The area would be graded and further compacted. A tack coat would be applied to the existing asphalt edge to make the transition between the old and new asphalt smooth. Drainage for this area already exists and has been proven to be sufficient for runoff.	NOE	
2002128429	Mobile Home Replacement Parks and Recreation, Department of Hollister--San Benito The existing mobile home in Residence #12 is over 30 years old and is past the point of repair or maintenance and needs to be replaced. The mobile home in Residence #4 was removed and not replaced. These replacement homes are needed in the District in order to maintain the staffing level. Housing cost in the area is very high and reduces the recruitment abilities of the District. One residence would be used for Visitor Service and one for Maintenance Service. The facilities would be a replacement in kind and thus would have no impacts on the existing conditions. They would be installed at existing mobile home pads, and utilities are present. The replacements will be double-wide homes about 24 feet wide by 50 feet long. All connections will be above ground and no homes will be dug and no vegetation will be disturbed.	NOE

<u>Documents Received on Tuesday, December 24, 2002</u>			
2002128430	<p>New Water Well Parks and Recreation, Department of Hollister--San Benito</p> <p>An additional water source is needed to water the GP Track and trails in the Upper Ranch. The additional water is needed to comply with the air quality requirements of reducing dust in the Park. This project would include refurbishing the well, installing a new pump, running water lines from the well to a new tank in the GP Track area, installing the new 50,000 gallon tank, installing a retaining wall below the new tank, and installing a fill spout from the tank to fill the water truck. The water line would be approximately 2,500 feet long and buried approximately three feet deep.</p>	NOE	
2002128431	<p>Area 5 Entrance Parks and Recreation, Department of Hollister--San Benito</p> <p>The existing entrance into the group campground area in the Upper Ranch (Area 5) is base rock and compacted native soil. Vehicles leaving Area 5 are faced with traffic speeds of 55 MPH on Cienega Road. Vehicles are required to make a quick take off from gravel onto asphalt, digging up base rock as they leave. Vehicles going into Area 5 are also required to go from 55 MPH to a stop before the gate, digging up the base rock. An asphalt apron would make a safer transition and eliminate the wash-board effect on the entrance. Current drainage for this area flows into a sediment basin. The drainage and sediment basin are large enough to accommodate any slight increase in runoff caused by the asphalt apron. This project would grade and further compact the existing entrance on both sides of the gate, an area of approximately 3,672 square feet. Then 1/2" fine hot asphalt would be spread and rolled until an average 2" thickness was achieved over the 3,672 square feet. The asphalt would only be spread on the existing base rock entrance and would not impact any vegetation.</p>	NOE	
2002128432	<p>Removal of Vegetation at the Cajalco Creek Outlet Tower Metropolitan Water District of Southern California --Riverside</p> <p>The Metropolitan Water District of Southern California is proposing to remove the vegetation present on the concrete apron in front of the Cajalco Creek outlet tower. The vegetation will be removed and disposed of by tractor and/or small dump truck in an approved disposal location.</p>	NOE	
2002128433	<p>Amendment to Existing Lease Agreement with the Riverside County Regional Park and Open Space District for Management of Recreation Facilities at Lake Skinner Metropolitan Water District of Southern California --Riverside</p> <p>The Metropolitan Water District of Southern California proposes to amend an existing lease agreement between the Riverside County Regional Park and Open Space District and Metropolitan for the management of recreation facilities at Lake Skinner in Riverside County. The proposed amendment will provide for a short-term extension of the existing lease that expires on January 1, 2003 and will allow for uninterrupted recreational amenities at Lake Skinner. The lease extension would be limited to two years in order to permit Metropolitan an opportunity to coordinate with the Riverside County Regional Park and Open Space District to study development options for additional recreational resources and would provide for additional one-year extensions upon mutual agreement of the parties.</p>	NOE

2002128434	Amendment of Site Cleanup Requirements for Napa County Flood Control and Water Conservation District Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Napa--Napa This is an action for the protection of the environment to protect quality and beneficial uses of waters of the State of California.	NOE	
2002128435	Highway Advisory Radio System Caltrans #2 --Modoc Installation of a highway advisory radio (HAR) system on State Routes 139 and 299 in Modoc and Lassen Counties near the community of Adin. The HAR system will advise motorists of adverse road conditions. The antenna and transmitter will be installed at the Caltrans Adin maintenance Station on route 299 near the Lassen/Modoc County line. The three HAR signs will be placed at the following locations: 1) Modoc Route 299 post mile 1.33 facing westbound traffic, 2) Lassen Route 299 post mile 24.89 facing eastbound traffic, 3) Lassen Route 139 post mile 65.65 facing northbound and southbound traffic. Electrical and telephone service connections will be needed for each sign. Utilities will be extended to each site via underground conduit from existing utility poles. Minor earth disturbance and vegetation removal will occur due to trenching for conduit and excavations for equipment pads and sign posts. All work will be confined to State right of way except for a utility easement on Route 299 in Lassen County at post mile 1.33. Paved pullouts will be constructed at each sign location for maintenance vehicles.	NOE	
2002128436	Safety Lighting Caltrans #2 --Modoc Installation of safety lighting at the intersection of State Routes 299 and 395 in Modoc County approximately five miles east of Alturas. Five luminaries will be installed within the three way intersection. Underground electrical conduit will be connected to an existing power pole within the highway right of way. The purpose of the project is to improve nighttime safety at the intersection. The project is located in a sparsely populated area consisting of public lands, rural home sites, and agricultural land. The railroad is located northwest of SR 299 and runs parallel to the highway. Bureau of Land Management (BLM) property and Bureau of Indian Affairs (BIA) property adjoin the project boundaries on the southeast side of SR 299 and adjacent to SR 395. Minor ground disturbance will occur as a result of trenching for conduit and excavations for light standards. Vegetation is sparse within the project limits and disturbance will be minimal. The project will be confined to State right-of-way.	NOE	
2002128437	Emergency Deck Repair, Byron Road Bridge Water Resources, Department of, Division of Engineering Byron--Contra Costa Drive 16 piles adjacent to the bridge; install steel beams and transverse beams beneath the bridge supported on the piles. Clean the existing deck by hydroblasting and placing 3-1/2 inch layer of reinforced concrete directly on the deck. Raising the road approaches slightly to provide a smooth transition to the new bridge surface.	NOE

2002102072	Proposed Construction of a New School for the Arcohe School District Arcohe School District --Sacramento The Arcohe School District has an immediate need for a new school, the District has not determined if this school will be an elementary or a middle school. It is anticipated that this school will have an eventual student enrollment of 200 plus. This student population growth is based on the overall increase in population of the District. The District has selected this 10-acre site because it is located adjacent to the existing Herald Elementary School on Ivie Road. The District has not investigated any other sites for the possible construction of a school. Direct beneficiaries include the children that will attend the proposed school, their families, and the community.	NOD

2002079011	Church of Jesus Christ - LDS Carlsbad, City of Carlsbad--San Diego California Department of Fish and Game is executing a lake and streambed alteration agreement pursuant to section 1603 (SAA #R5-2002-0184) of the Fish and Game Code to the project applicant, Leo Garcia, representing the Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter Day Saints. The applicant proposes to alter the streambed of an unnamed drainage, tributary to Encinitas Creek to accommodate the construction of the LDS Meeting House. Project activity includes construction of a church building with retaining walls, parking facilities, as well as an on-site wetland mitigation area. The project impacts 0.13 acre of streambed.	NOD	
2002101011	La Habra Costco La Habra, City of La Habra--Orange Costco Wholesalers propose the development of a 149,705 sf. Costco facility on the 14.49 acres at 101 N Beach Blvd. in the City of La Habra. The existing shopping center would be demolished and replaced with the Costco that contains a food service area, tire center, and a 12 fueling station members only gas station. Landscaping and required parking would be provided on site.	NOD	
2002111058	Euclid Street and Brookhurst Road at State Route 91 Fullerton, City of Fullerton, Anaheim--Orange The proposed project would involve improvements to the on- and off-ramps along State Route 91 at Brookhurst Road (PM 1.3) and Euclid Street (PM 2.2) The improvements are being implemented to improve traffic operations on the ramps and at the arterial intersections with the ramp termini. The improvements are not anticipated to result in significant increases in traffic volume at either of these interchanges, but rather better management of existing traffic volumes at these locations. The improvements include widening Brookhurst Road and Euclid Street within existing rights-of-ways; widening the freeway off-ramps within the existing right-of-way to provide additional left-turn storage capacities; and improving the traffic signals at the existing ramp intersections. Landscaping of each interchange area and upgrading of the existing Brookhurst drainage system will also occur.	NOD

2002128438	2002 SFPP Line Section 25 and 47 Pipeline Repair Project State Water Resources Control Board, Division of Water Quality --Contra Costa, Solano, Yolo SFPP, LP. operating partnership for Kinder Morgan Energy Partners, L.P. has proposed to inspect and repair two pipelines, LS 25 and LS 47. There will be a total of 53 dig sites along LS 25 and LS 47. From these dig sites, 41 dig sites to repair LS 25 and 6 dig sites to repair LS 47 are within special statues species habitat. The majority of the LS 47 alignment parallels LS 25 with approximately 4 feet. The inspection and repair work for each of the dig sites will occur over a 3 to 4 day period. The inspection and repair of the pipeline will result in the temporary impact of 0.84 acres along LS 25 and 0.16 acre along LS 47 of jurisdictional wetlands and waters. The actual excavation will be about 10 feet by 20 feet at each dig site.	NOE	
2002128439	Trailhead Stairs-Independence Trail Parks and Recreation, Department of --Nevada Construct an approximately 100' stairway from bus parking area to trailhead of Independence Trail in South Yuba River State Park. Currently, visitors disembarking from buses must walk approximately 220 yards along Highway 49 to trailhead, exposing pedestrians to potential traffic hazards. Clear vegetation from foot of stairway down to trailhead and install several benches next to existing restroom. Project protects public safety, improves accessibility, and supports continued use.	NOE	
2002128440	Pioneer Express Trail Reroute Parks and Recreation, Department of --Placer Construct/realign approximately 800 feet of Pioneer Express Trail in Auburn State Recreation Area to replace portion of trail that was eliminated by construction of the Auburn Skateboard Park. Clear vegetation from new corridor, then grade four-foot wide trail with a combination of mechanized equipment and hand tools. Install culvert at ephemeral drainage crossing trail reroute to provide visitors with a safe path of travel and prevent potential sedimentation. Project enhances visitor services and supports continued use and maintenance.	NOE	
2002128441	Pioneer Express Trail Repair Parks and Recreation, Department of --Placer Repair eroded portion of Pioneer Express Trail located adjacent to Horseshoe Bar Road at Folsom Lake State Recreation Area. Grade trail, then resurface with base rock and native soil. Define and stabilize outer perimeter of trail with a combination of hydroseeding and large rocks. Project improves accessibility and visitor services and supports continued use and maintenance.	NOE

There will be about 850 square feet of disturbance along the bank. Construction of fill will involve the use of a bulldozer, skip loader, dump trucks, blade, sheepsfoot, and miscellaneous minor tools. The portion of Mountain Springs Creek that runs through the project site provides no fishery habitat. The ephemeral nature of this portion of the watershed makes it unlikely habitat for aquatic endangered species or candidates. The immediate area of the project is absent riparian vegetation.</p>	NOE

2002128443	Las Tablas Creek Culverts Installation, and Tranching Fish & Game #3 Paso Robles--San Luis Obispo SAA R3-2002-0839 The construction includes installation of four, 24-inch corrugated metal culverts, 20 feet in length, to accommodate an 18-foot driveway. The Operator will also be installing a water line by trenching approximately 20 feet downstream from the crossing area. The polyvinyl chloride, two-inch line will be installed approximately 30 inches below the ground surface. A 12-inch wide, 36-inch deep trench will be constructed. The trench will be filled with 6 inches of clean sand, the pipe placed, and an additional 6 inches of backfill added. The remaining 24-inch deep trench will be backfilled with native material. The trench will then be compacted consistent with the adjacent native material.	NOE	
2002128444	Revegetation Near Unnamed Creek Fish & Game #3 Hillsborough--San Mateo SAA R3-2002-0832 The project includes removal of invasive, non-native plants and replacing them with native plants.	NOE	
2002128445	ADA Parking Spaces and Paths-Loafer Creek Campground/Day Use Area Parks and Recreation, Department of --Butte Construct two separate ADA parking spaces and associated paths to existing restrooms located at boat launch ramp and horse camp in Loafer Creek Campground/Day Use Area at Lake Oroville State Recreation Area. Install accessible bench, drinking fountain, and telephone at boat launch area; construct ramada with barbecue at horse camp. Project improves accessibility and visitor services and supports continued use and maintenance.	NOE
